

Don't forget to read your Accelerated Reader Books and write three entries in the Reading Journal, practice your Weekly spelling words in time for your test and learn your times tables.

International: Make an energy fact map. Label a map of the world showing energy facts about different countries e.g. China is the biggest user of coal in the world, the USA is the biggest user of nuclear power, France is the second biggest user of nuclear power.

Writing: Write a discursive article about the advantages and disadvantages of nuclear power. Remember an introduction and conclusion, supporting arguments for each point of view and conditional language (e.g. some people say, many people argue, it could be said).

Skills Tasks:
 DT: Design your own windmill - take inspiration either from old-fashioned windmills or modern wind turbines. Which ever you choose, your windmill must move in the wind!
 Maths: Conduct an opinion poll! Take one or two of the issues from our Party Manifesto (Film Project in English) and create a few questions about them to ask friends, family or classmates e.g. Would you be prepared to pay more for electricity from renewable sources such as wind and sun? Then present your findings using a bar or line graph.

Year 5 Home Learning is due to be completed and returned in your Purple Book by Monday 22nd May 2017. Please remember that you should complete at least two pieces of Home Learning from the passport.

Home Learning at Grazebrook

At the beginning of each half term, class teachers set the 'Home Learning Passport' activities for English and IPC. You should choose to complete at least one of the activities from each of the two areas but you can choose to do more. These can be completed in your purple book or, if they are a model or project, they can be completed separately. These pieces can be handed to the teacher any time before the date given inside the booklet. Each Friday, class teachers will give Mathematics home learning in your book. This will reflect on the work you have been completing in class. This should be completed and returned for marking by Monday of the following week.
