

Don't forget to read your Accelerated Reader Books, practise your Weekly spelling words in time for your test and learn your times tables.

- What do you know about different forces acting on an object?

- Research facts about forces and show all your findings. Ensure all facts are backed up by evidence or examples.
- To list a set of instructions for a Year 5 child to conduct an experiment on forces.

Knowledge Tasks:

- To create a forces model. Follow the procedure above if the model is too large.
- To make a model from a scene from the story Matilda for our class reading display.
- To design and create a model of a fairground ride. It can be made using resources around you or computer generated. If the model is large and impossible to bring to school, please take photos of the building process and of the final product.

Skills Tasks:

- To design and create a

Year 6 Home Learning is due to be completed and returned in your Purple Book by Monday 17th October 2016. Please remember that you should try to complete at least three pieces of Home Learning from the passport.

Home Learning at Grazebrook

At the beginning of each half term, class teachers set the 'Home Learning Passport' activities for English and IPC. You should choose to complete at least one of the activities from each of the two areas but you can choose to do more. These can be completed in your purple book or, if they are a model or project, they can be completed separately. These pieces can be handed to the teacher any time before the date given inside the booklet. Each Friday, class teachers will give Mathematics home learning in your book. This will reflect on the work you have been completing in class. This should be completed in your purple book and returned for marking by Wednesday of the following week.
