

Don't forget to read your Home School Reader or Accelerated Reader book, complete your Reading Journal and practise your weekly spelling words and learn your times tables.

Research where electricity comes from and write about your findings.  
 Can you create an advert for the robot you have designed? How will you persuade people to buy your product?  
 List all the electrical appliances in your home. What materials are they made from and why?  
 Research Christopher Wormwell (the author of our writing week book, 'One Smart Fish'). Has he written any other books? How are they the same or different?

Knowledge Tasks:

Year 2 Home Learning is due to be completed and returned by Monday 22nd May 2017 Please remember that you should try to complete at least three pieces of Home Learning from the passport.

Skills Tasks:

- Can you design and make a robot. What will it be called? What will it do? How will it work? What materials will you use?
- Research our host country Japan:  What amazing electronic inventions do they have? How do they use electricity for transport?
- Think about how to stay safe around electrical appliances in your home. Can you present your top tips on keeping safe?

Home Learning at Grazebrook

At the beginning of each half term, class teachers set the 'Home Learning Passport' activities for English and IPC. You should choose to complete at least one of the activities from each of the two areas but you can choose to do more. These can be completed in your purple book or, if they are a model or project, they can be completed separately. These pieces can be handed to the teacher any time before the date given inside the booklet. Each Friday, class teachers will give Mathematics home learning in your book. This will reflect on the work you have been completing in class. This should be completed in your purple book and returned for marking by Wednesday of the following week.
