

force is useful in our daily lives. shows how magnetic force is useful in our daily lives.

- Create a poster that
- Research the life of Isaac Newton and write a biography or fact file.
- Write an explanation of how an aeroplane flies.

Knowledge Tasks:

Don't forget to read your Accelerated Reader Books and write three entries in the Reading Journal, practise your Weekly spelling words in time for your test and learn your times tables.

- Create an independently - standing marble run using junk you have found around your house. Use your knowledge of friction and gravity to change the speed of the marble.
- Make a force meter that accurately measures the weight of different objects in Newtons.
- Write a story about a child who can alter forces. How could they use their special powers?

Year 4 Home Learning is due to be completed and returned in your Purple Book by Friday 16th December 2016. Please remember that you should try to complete at least three pieces of Home Learning from the passport.

Home Learning at Grazebrook

At the beginning of each half term, class teachers set the 'Home Learning Passport' activities for English and IPC. You should choose to complete at least one of the activities from each of the two areas but you can choose to do more. These can be completed in your purple book or, if they are a model or project, they can be completed separately. These pieces can be handed to the teacher any time before the date given inside the booklet. Each Friday, class teachers will give Mathematics home learning in your book. This will reflect on the work you have been completing in class. This should be completed in your purple book and returned for marking by Wednesday of the following week.
