MAKER MAT

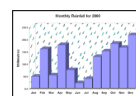

Please return your completed activities by Monday the 4th of December.

Why do some mountains have snow even in the middle of summer? Prepare a presentation answering this question!

Create a 3D model showing the Water Cycle.

Make a weather station, record weekly rainfall and show the results in a graph.

Create a model or diagram showing the relationships between the Earth, Sun and Moon.

Year 5

Research the climate of a country of your choosing and design a poster comparing it with the UK.

Draw and annotate designs for clothing suitable for hot or cold climates.

Find a photo showing extreme weather—use this as inspiration for your own artwork.

Find out what Grazebrook could do to help stop climate change—create a poster to persuade your classmates to help.
