

# HOME LEARNING

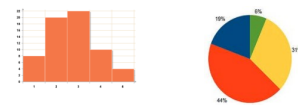

# MAKER MAT

Please return your completed activities by  
**Monday 19th March**

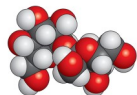

**Design and illustrate two options (each to include main and pudding!) for a healthy school lunch**

**Write a healthy eating motto for Primary school children, which helps to remind them of healthy choices they can make every day.**

**Conduct a home recycling survey—what do you recycle? What materials are they made of? Show results using a graph.**

**Make a molecular model of one of the materials we have discussed in IPC e.g  $H_2O$ .**

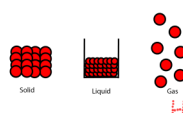

**Year 5**

**Make a collage using different materials.**

**Design a poster to persuade people to use less plastic—what changes could they make to their shopping habits?**

**Make a model or diagram showing the three states of matter—solid, liquid, gas.**

**Conduct your own experiment about changing states—record your findings using words, pictures, photos.**
