MAT

Write a diary account of the visit of Darwin to the Galapagos Islands.

Design a model of a species of animal that Darwin is said to have discovered.

Make a model of a virus, microbe or superbug.

Create a model of a dinosaur—label and describe it.

Make a video or poster to show how translation of shapes works on a quadrant.

Make a poster detailing the various theories of how dinosaurs came to be extinct.

Create an African piece of artwork in a traditional style.

Create a model of an animal that has adapted to survive in South Africa.
