THE WORLD WE WANT

Dear Reception Parents and Carers

This summer we have a really exciting project planned across the school based on the [UN Sustainable Development Goals](#), which seek to encourage us to ‘achieve a better and more sustainable future for all.’ The project will culminate in an event for the whole school community on Thursday 23rd May 2019 that we would love you to attend.

In Reception, we are looking at Goal 12: Responsible Consumption and Production with a particular focus on recycling and linked to our Ocean Treasures topic. We will be creating some large scale ocean artworks using recycled materials and would love your help so if you have any skills or passions in this area please let us know – we would love your help! You can either speak to one of us or email the school office at gboffice@newwavefederation.co.uk.

We look forward to hearing from you and, as always, appreciate your support.

Yours sincerely,

Joanna Ichim and Amer Shabbir

Reception Class Teachers.
