

# HOME LEARNING

# MAKER MAT

**Select a plant at home or in the park. Each week measure, observe and record how it grows and changes. Draw diagrams or take pictures to illustrate your report.**

**Create a model or diagram explaining pollination.**

**Paint or draw a picture of what a green, happy planet would look like compared to one that is polluted.**

**Observe one of the animals that lives in Clissold park. Draw it and label its adaptations.**

## Year 5

Summer 1 2019

**Plant an indoor garden, choosing plants that are adapted for hot and dry environments.**

**Create a poster to persuade people to be more environmentally friendly.**

**Create a pic-college of ways you can be environmentally friendly at home.**

**Invent a creature that has adapted to live on the moon. Create a picture or model and label the adaptations.**
