

Friday 29th January 2021

Dear Grazebrook Families,

Thank you for all the feedback that you have given us about the ways in which we can improve our remote learning. As a result of this feedback and our aim to continuously develop our home learning offer, the layout of Google Classroom will be changing slightly from Monday to make it easier to find lessons and materials each day. These changes are detailed below:

The Stream

The stream will only contain announcements such as the timetable and links to Google Meets.

Classwork

The Classwork section will be organised by date and then in the order that the tasks are required for the day.

It will be clear from the symbol on the left whether it is:

 Assignment	- A task to be completed
 Quiz assignment	- A quiz to answer
 Question	- A question to answer
 Material	- Material to read, watch or listen to

Communicating with school

If you need to contact the teachers, please use the year group email during office hours for this rather than Google Classroom. The children should use Google Classroom to discuss the learning with their teachers during the school day.

Many thanks,

Duncan Kilty
Deputy Headteacher
