Dear Grazebrook families

Advice to All Parents - Single positive case of COVID19

We have been advised this morning by Public Health England that there has been a confirmed case of COVID-19 within the school.

We are continuing to monitor the situation and are working closely with Public Health England. This letter is to inform you of the current situation and provide advice on how to support your child. Please be reassured that for most people, coronavirus (COVID-19) will be a mild illness.

The small number of staff and children who have been in close contact with the individual who has tested positive for coronavirus (COVID-19) have received a letter informing them that they must stay at home for 10 days.

What to do if your child develops symptoms of COVID 19

If your child develops symptoms of COVID-19, they must not come to school and should remain at home for at least 10 days from the date when their symptoms appeared. Anyone with symptoms will be eligible for a PCR test and this can be arranged via <https://www.nhs.uk/ask-for-a-coronavirus-test> or by calling 119. All other household members who remain well, must stay at home and not leave the house for 10 days. This includes anyone in your 'Support Bubble'.

Symptoms

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- a new continuous cough
- a high temperature
- a loss of, or change in, your normal sense of taste or smell (anosmia)

For most people, coronavirus (COVID-19) will be a mild illness.

If your child does develop symptoms, you can seek advice from the nhs.uk website [here](#). If you are concerned about your child's symptoms, or they are worsening you can seek advice from NHS 111 at <https://111.nhs.uk/> or by phoning 111.

How to stop COVID-19 spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19

Do

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

Further Information is available [here](#).

If your child is currently attending school, you may wish to consider checking whether they are an asymptomatic carrier of COVID-19 by using the local lateral flow testing centre. Here is the [link](#) to the booking system. The rapid test sites are for people who do not have symptoms of coronavirus – they are aimed at those whose work, volunteering or schooling means they are required to leave their home and be in contact with others.

Yours sincerely

Katie Beecroft
Headteacher
